

My family and I live in North Austin and I believe my needs should warrant representation in Austin City Government as much as someone living in other parts of the city. Currently I do not have a voice for issues related to my area of town on the City Council. I supported the 10-1 District concept to ensure that I would get that voice, but the new maps are going to drown out my voice once again. Please ensure the maps are drawn fairly to all and have District 10 starting above 2222 - **PLEASE go back to the September 28th map and move the southeastern boundary to Start at 2222, but otherwise follow the ICRC map from September 28th.** I mean no disrespect to Tarrytown, Brykerwoods and Rosedale, but I do not believe my needs are the same as those communities' needs.

Thank you for your consideration,  
Rhonda Murphy
